PROFILE

Petrochemical Engineering student with hands-on experience moderating and managing active Web3 and cybersecurity communities. Skilled at handling support tickets, resolving conflicts, and hosting live events, with a strong focus on maintaining trust and a positive reputation between project teams and their communities. Experienced in partner onboarding, public relations, and large-scale community event coordination, with a track record of keeping members and teams on good terms.

EDUCATION

Petrochemical Engineering
Federal University of Petroleum Resources Effurun (FUPRE), Delta State, Nigeria — Currently studying (undergraduate)

EXPERIENCE

Discord Moderator | Fameverse

- Handled ticket support for community members, resolving issues promptly and professionally.
- Maintained a fair balance between users and the project, ensuring both sides felt heard and respected.
- Protected the company's reputation by enforcing community guidelines and managing sensitive situations with care.

Community Admin | Offshield Security

- Answered cohort members' questions and provided guidance throughout the learning process.
- Assisted the team in hosting live cohort classes via CyberRant and Google Meet.
- Hosted quiz events to boost engagement and reinforce learning within the cohort.
- Helped drive strong communication and a healthy sense of community among members.

PR Team | Offshield Security

- Supported public relations efforts to strengthen the project's image and outreach across community channels.
- Coordinated messaging between the team and the community to maintain clarity and trust.
- Worked alongside the community admin team to align public communication with cohort activities.

PR Team | Demanba Labs

- Contributed to public relations and onboarding efforts, helping new members understand the project and get started smoothly.
- Assisted in shaping community-facing communication to support the project's growth and reputation.
- Worked with the wider team to ensure a consistent and welcoming onboarding experience for newcomers.

Community Admin | Nigerian Squid Game Event

- Organized and hosted a large-scale community game event with over 200 participants.
- Managed participant coordination, rules enforcement, and engagement throughout the event to keep it fair and exciting.
- Handled real-time community support and conflict resolution to ensure a smooth experience for all players.

Partner | Papaplay

- Partnered with Papaplay to onboard new users onto the platform.
- Guided users through account setup and platform features to ensure a smooth first experience.
- Served as a point of contact between the platform and incoming users during the onboarding process.
